Repair Services Warranty

Repairs performed by Espresso Resource NW, Inc have a 90-day parts and labor warranty limited specifically to parts replaced. The warranty does not cover regular maintenance, normal wear and tear, misuse, abuse, negligence, power surges, "acts of God", shipping damage, or other items that were not in the scope of the repairs invoiced. There are no refunds for repair services.

We will primarily troubleshoot the issue over the phone, so contacting us when you are in front of the machine and able to perform basic actions is important. If we are unable to resolve the issue over the phone, you will be provided with information on how to deliver your machine to our repair center.
